Description

The Akyga® AK-RD-06A power cable is a cord terminated with a **figure-eight plug (IEC C7)**. It will allow you to connect devices such as a radio, games console or laptop power supply to the power source. The universal white colour of the cable makes it easy to match it with most devices. On the other hand, the **1.5 metre length** allows free use of connected devices. What's more, the high-quality materials used in production make the cable durable and long-lasting.
