AC/DC adapter

Model: **AK-CH-15**

Product type	AC/DC adapter
Series	Universal
Supply voltage	110-240 V / 50/60 Hz
Power consumption	< 1.6 A
Maximum power	65 W (USB-C) or (45 W + 18 W)
Mechanical switch	None
Ground wire	None (II protection class)
OVP	Yes
OCP	Yes
OTP	Yes
SCP	Yes
USB-A output voltage	5 V / 3 A, 9 V / 2 A, 12 V / 1.5 A (QC 18 W)
USB-C output voltage	5 V / 3 A, 9 V / 3 A, 12 V / 3 A, 15 V / 3 A, 20 V / 3.25 A (PD 65 W)
Compliance with DCP (Dedicated Charging Port)	Yes
Material	ABS
Product color	White
Display	None
MTBF	100000 h
Temperature	5 - 50 °C
Package	EcoBox
Product size (L x W x H)	28 x 60 x 97 mm
Package size (L x W x H)	150 x 86 x 37 mm
Net weight	274 g
Gross weight	359 g
CE compatibility	Yes
FCC compatibility	Yes
RoHS compatibility	Yes
REACH compatibility	Yes
EAN code	5901720137142
Warranty	24 months

Description

Akyga® AK-CH-15 is a **65W USB charger**. It is used to power both small portable devices as well as those requiring much more power. Do you often work from a coffeehouse, during a train journey or at the university? Or maybe you just like to keep your desk tidy? This is the perfect power adapter for anyone looking for a universal solution that will charge not only phone or tablet, but also a laptop. What's more, the charger has two USB ports. One **USB C PD port** and a second **USB A port with QC 3.0 function**. The **Power Delivery** standard used in the USB C connector will enable not only **fast charging**, but also adapt power parameters to the currently connected device. In this way, you can power any equipment from a single socket, without worrying about damaging it. In addition, an undoubted advantage of the charger is the absence of permanently attached cables. This allows you to decide for yourself whether to connect one or two devices to it. Thus, we will not be forced to replace the adapter when the cables are damaged. Just change the cables to new ones.
