Description

Akyga® AK-UP-07 is a **server power cable**. The long **3 m cord** is terminated with **IEC C14** and **IEC C15** connectors. They are used to connect service bypass panels, hot-plug and hot-swaps devices to Uninterruptible Power Supply (UPS). Furthermore, the plugs are characterised by a high current resistance of up to **10 A**. This makes them suitable for powering complex systems and high power devices.
