Description

Akyga® AK-PC-13A is an **adapter for uninterruptible power supplies (UPS)**. This **one meter long cable** allows you to convert an **IEC C14 connector** into a **CEE 7/3 socke**t, which is ideal if you run out of available **Schuko** sockets on your UPS. Thanks to the adapter, you can easily replace the existing C13 sockets in the power supply to connect equipment with CEE 7/4 plugs. In this way we can power for example a laptop, printer, monitor or projector.
