Product color	RAL 7035
Product size (L x W x H)	1070 x 505 x 452 mm
Net weight	44 kg
EAN code	5901720137449
Warranty	24 months

Description

Akyga® AK-NC-10N cabinet is an ideal solution for storing a large number of laptops and tablets. The **shelves** inside the cabinet not only help to keep things tidy, but also guarantee easy access to the devices. In addition, a **universal power socket** has been placed on each of the shelves. This will allow you to **charge 10 devices at the same time**! In addition, on the side walls of the cabinet there are **ventilation holes**. They are responsible for maintaining adequate air circulation, which is necessary for the proper work of power supplies. In addition, at the back of the cabinet, a **main power switch** has been installed, which will quickly turn off power to all laptops if necessary.
Strong steel doors with a **built-in key lock** make it a safe form of storing equipment. This makes the cabinet ideal for offices, schools, open-plan offices and anywhere else where only designated people have access to equipment. What is more, the cabinet is equipped with **castors** and **handles**, which make it easy to transport the cart between rooms. Two of the wheels are **equipped with a brake**, which will allow you to protect the cart against uncontrolled movement. Besides, the mobile laptop cabinet has a **power cable** and a **handle** for hanging it. This will make it much easier to relocate the cabinet when needed.
This product is available to order. Delivery time is approximately 14 days.
