

Adapter

Model: **AK-AD-12**

Product code	AK-AD-12
Product type	Adapter
Directivity	DVI -> VGA
The cable plug #1	Male connector DVI-I 24+5
The cable plug #2	Female connector VGA
Plated plugs	Yes - nickel plated
Material	ABS
Product color	White
Color insets	Blue
Temperature	5 - 50 °C
Package	UniBag
Product size (L x W x H)	44 x 40 x 17 mm
Package size (L x W x H)	115 x 70 x 19 mm
Net weight	31 g
Gross weight	33 g
EAN code	5901720130693
Warranty	24 months

Description

Akyga® AK-AD-12 adapter is used to transfer analog data from a device with **DVI-I** output to a device with **VGA** input. These connectors are still popular with older models of graphics cards and monitors. What is more, the adapter is **unidirectional**. That is, the data flow is one way, from the DVI-I connector to the VGA connector. Therefore the adapter is mainly suitable for transferring video signal from PC to monitor. For a more permanent connection of the adapter to the computer, a **reliable screw fixing** is used, which not only stabilises the adapter in the socket, but also protects against accidental disconnection of the adapter.
