# Description

**The Akyga® AK-SC-E10** is a handy **adapter for charging electric vehicles** imported from China. On one side is **the Type 2 socket** found on most EV charging stations. On the other is **the GB/T connector**, which is used in Chinese electric cars. These can be found on BYD cars, among others. Thanks to the adapter, you will be able to charge your Chinese EV without any problems using a charger with a Type 2 plug. What is more, the adapter is made of carefully selected materials which guarantee safety and reliability during charging.
