Adapter

Model: **AK-AD-70**

Product code	AK-AD-70
Product type	Adapter
Signal frequency	3840x2160@30Hz
Ultra HD (4K)	Yes
Full HD	Yes
The cable plug #1	Male connector HDMI
The cable plug #2	Female HDMI connector
Support	ARC, CEC 2.0, 3D
Version	High Speed with Ethernet (ver. 1.4)
Plated plugs	Yes - golden plated
Product color	Black
Temperature	5 - 50 °C
Package	UniBag
Product size (L x W x H)	30 x 20 x 17 mm
Package size (L x W x H)	115 x 70 x 18 mm
Net weight	11 g
Gross weight	66 g
EAN code	5901720139085
Warranty	24 months

Desctription

The Akyga® AK-AD-70 female-to-male HDMI adapter is a practical tool for easy connection of HDMI devices in hard-to-reach spaces. This adapter allows you to direct the HDMI cable at a 90-degree angle, eliminating the need to bend it, which often causes damage to the cable. What's more, the connector is made with **HDMI 1.4**, allowing it to transmit high quality **4K resolution** signals and surround sound multi-channel audio. In addition, the adapter has **support for ARC** (Audio Return Channel), which enables two-way audio transmission, and **CEC 2.0** (Consumer Electronics Control), which allows HDMI devices to be controlled with a single remote control.
The HDMI 90-degree adapter also **supports 3D technology**, allowing you to connect devices that support 3D content. This feature allows movies, games and other content to be played in a full 3D experience for a more immersive and exciting experience.
