The **Akyga® AK-PD-19 charger** is the key to the full performance of your **iRobot Roomba cordless hoover**. It is a perfect match for Roomba cleaning robot models of the **400**, **500**, **600**, **700**, **800** and **900** series and offers them not only compatibility but also reliability, which is crucial for the effective use of these devices.
The power supply offers an output voltage of **22.5 V** and a current of **1.25 A**, which guarantees efficient and safe charging of the cleaning robot. Its maximum power output of **28 W** guarantees that the device will be back in operation quickly. In addition, the power supply is equipped with OVP, OCP and OTP protection, ensuring complete safety during use.
A distinguishing feature of the power supply for the iRobot Roomba AK-PD-19 is its compact size and sleek black design, making the device look aesthetically pleasing and take up little space. The long **1.8-metre cable** provides plenty of freedom and flexibility when charging, which is particularly important in domestic spaces.
How do I charge my cordless hoover? Simply plug the power adapter into a power socket and then into your iRobot Roomba hoover, and the intelligent charging system will take care of charging the device efficiently. This makes the charging process simple and convenient, allowing you to quickly enjoy the full performance of your cordless hoover.
The replacement charger for the iRobot Roomba from Akyga® is an excellent alternative to the original power adapters, especially in case of loss or damage. It provides the same charging quality as the original charger. Don't waste time searching for your lost power adapter - Akyga® AK-PD-19 will provide your hoover with optimal charging and restore its full functionality.
