Description

Akyga® AK-USB-03 is a cable with a length of 1.8 m enabling connection of devices equipped with USB A and USB mini-B 5-pin connectors in the USB 2.0 standard. The product is used in power supply and data transmission between devices. It is often used when connecting the camera with the mini-B 5-pin USB port to the computer.

Cables of this type are commonly used for chargers, powerbanks, smartphones , video cameras and other devices and accessories, currently very often equipped with a micro-B USB port. The cable not only power supplies them, but also can be used to exchange data between them and the computer or laptop.
