Description

Akyga® AK-USB-49 is a USB-C spiral keyboard cable, ideal for lovers of modern design with a touch of classic. Its distinctive stretchable spiral form (the so-called **Aviator Coiled Cable**), combined with the robust GX16 connector, makes it a unique addition to any computer set-up. It brings an element of style and functionality to the workspace. Thanks to its flexibility, the USB-C cable helps to keep the workstation tidy and aesthetically pleasing, and its **3-metre length** ensures comfortable use without restrictions.

The AK-USB-49 USB cable is equipped with **two USB-C connectors**, allowing you to easily connect devices equipped with these symmetrical connectors. You can easily connect a mechanical keyboard as well as another mobile device. The cable has gained in strength thanks to the **additional braid**, which not only emphasises its elegant design, but also protects it from mechanical damage, providing greater resistance to bending and extending its life.
