Computer case ATX

Model: **AK402BL**

3

Product code	AK402BL
Product type	Computer case ATX
Format	Micro ATX
Series	Micro Tower ATX Case
Motherboard compatibility	Micro ATX, Flex ATX, Mini ITX
Drive bay 5.25" external	1 pc
Tool-less 5.25" drive installation	No
Drive Bays 3.5" internal	1 pc
Drive bay 3.5" external	1 pc
Tool-less 3.5" drive installation	No
Drive bays 2.5" internal	1 pc
Drive Bays 2.5" and 3.5" in all	3 pcs
Maximum graphic card length	320 mm
Maximum CPU cooling height	140 mm
USB 3.0 ports on the front panel	None
USB 2.0 ports on the front panel	2 pcs
Audio input on the front panel	1 pc
Microphone input on the front panel	1 pc
Expansion card slots	4
Security lock	Yes
Cable management system	Basic
Installed fans	None
Spaces for additional fans	2
Fan slots description	Side: 12cm, back: 8cm
Power supply unit included	No
Material	Galvanized steel
Product color	Black
Color insets	Blue
Display	None
Package	EcoBox
Product size (L x W x H)	365 x 160 x 350 mm
Package size (L x W x H)	415 x 190 x 390 mm
Net weight	2.5 kg
Gross weight	3.05 kg
CE compatibility	Yes
EAN code	5901720133434
Warranty	24 months

Description

The **AK402BL** case is a product of the Akyga Micro Tower cases, dedicated to users who want to build a compact computer. Small forms of computers are becoming more and more popular because they occupy little space and do not create the impression of "cluttering" - whether in office or at home. The elegant, black design makes it no longer necessary to hide the computer between the shelves, making it possible to match the casing to the room's design.
A great asset is the ability to expand and adapt components to changing needs and requirements. The casing allows the use of one of three different types of motherboards: **Micro ATX**, **Mini ITX** and **Flex ATX**. The **5.25" external bay** at the top will allow the installation of a CD/DVD drive, and the **3.5" external bay** can be used as a space for **memory card reader**. Inside the case there are **one 2.5” and one 3.5" bay** for drives installation. The **cable management system** and customized cutouts inside the case make it easy to install components, and the spacious interior allows for up to **320 mm** long graphics cards. To provide the best possible cooling, there are places for **two fans**: side of **120 mm** diameter and a rear fan of **80 mm** diameter. The maximum height of CPU cooling system is **140 mm**. On the front panel there are **two USB 2.0** ports as well as microphone and headphone inputs, which are easy accessible to connect any peripheral devices.
To protect the environment, all Akyga cases are packed in Ecobox.
