Description

Akyga® offer includes a removable **Front Panel AK-CA-18**, which is a service component compatible with many computer cases.

This product has **one USB 3.0** and **one 2.0 port**. USB 3.0 is a universal connector for up to 10 times faster data transfer between PC and external device than in USB 2.0. With ports you can quickly transfer data between devices such as pendrive, transfer photos from the camera, connect the mouse, keyboard or printer. In addition, the panel consists of an audio input for connecting speakers or headphones and a microphone input. The panel is **compatible with HD Audio**. The length of the cord is **65 cm**.

The panel will be a great replacement for the non-functioning component and will also work if you need to replace port 2.0 with port 3.0. It is ideal for use in Akyga **Midi Tower** enclosures.

This product complies with the standards and requirements of the EU and RoHS directives. The product is packed in a standard UniBag.
