Computer case ATX

Model: **AKY012BK**

3

Product code	AKY012BK
Product type	Computer case ATX
Format	Midi ATX
Series	Gamer
Motherboard compatibility	ATX, Micro ATX, Flex ATX, Mini ITX
Drive bay 5.25" external	2 pcs
Drive bay 5.25" internal	None
Tool-less 5.25" drive installation	No
Drive Bays 3.5" internal	2 pcs
Drive bay 3.5" external	None
Tool-less 3.5" drive installation	Yes
Drive bays 2.5" internal	5 pcs
Tool-less 2.5" drive installation	Yes
Tool-less 2.5" slim drive installation	No
Drive Bays 2.5" and 3.5" in all	5 pcs
Total internal bays	7 pcs
Total external bays	2 pcs
Maximum graphic card length	400 mm
Maximum CPU cooling height	163 mm
Sheet thickness	0.7 mm
USB 3.0 ports on the front panel	2 pcs
USB 2.0 ports on the front panel	2 pcs
Total number of USB connectors	4 pcs
Memory card reader	None
Audio input on the front panel	1 pc
Microphone input on the front panel	1 pc
Expansion card slots	7
Security lock	None
Hole for padlock	None
Cable management system	Advanced
Installed fans	None
Fan adjustments	None
Spaces for additional fans	5
Fan slots description	Front: 2x12cm, back: 12cm, top: 2x12cm
Water cooling ready	No
Anti-dust filters	Yes
Power supply tunnel	Yes
Power supply unit included	None
Material	Galvanized steel
Product color	Black

Display	None
Package	EcoBox
Product size (L x W x H)	455 x 205 x 482 mm
Package size (L x W x H)	518 x 265 x 516 mm
Net weight	5 kg
Gross weight	6.2 kg
CE compatibility	Yes
Included accessories	Set of mounting screws
EAN code	5901720134035
Warranty	24 months

Description

Akyga® AKY012BK computer case is a product from the Gamming solutions category, i.e. those created with particular thought about players. It has been made of high quality components and offers functionalities that should meet the expectations of even the most demanding consumers. A modern, black front panel with the addition of mesh gives the housing a "gamer" character. The side panel of the casing has been equipped with a plexiglass window, which gives an insight into the work of subassemblies and general presentation of the set.

The housing allows mounting motherboards: Micro ATX, Mini ITX, Flex ATX or standard ATX. This is a big advantage, allowing the components to be adapted to the growing needs or requirements of the user. The two 5.25 "external bays located in the upper part of the housing allow for mounting, for example, a CD / DVD drive or a recorder. Inside the case there are two 3.5 "pockets and five 2.5" pockets for mounting discs and drives. Adapted openings inside the housing allow easy assembly of components, and an advanced cable management system facilitates the preservation of the order among the wires. The spacious interior allows the installation of long graphics cards up to 400 mm, and the maximum cooling height of the processor is 163 mm.

In the upper part there are two USB 3.0 ports, two USB 2.0 ports and HD audio connectors, so that access to them is quick and convenient. In order to ensure better ventilation of the whole, there are space for five fans in the housing. Cooling is also favored by steel mesh inserts on the front panel.

The set includes a set of assembly screws. The contents of the set may vary depending on the delivery.
Out of concern for the environment, all Akyga enclosures are packed in EcoBox packaging.
