Description

Akyga® AK-CA-80 is an internal adapter for desktop PCs. The adapter enables you to convert the **SATA connector** available in your ATX power supply to a **PCI-E 6+2-pin connector**. This allows you to easily connect an additional graphics card without having to replace the power supply unit with a new one. Furthermore, the adapter is universal and allows you to power a graphics card with both PCI Express 6-pin and 8-pin connectors.
