| Warranty                 | 24 months                       |

## Description

High quality Akyga® AK-AD-39 converter, which allows you to effectively convert digital signal from miniDisplayPort to analog VGA signal. It is used in the installation of cabling for audio and video devices such as TV sets or home cinema sets or computers. High precision of workmanship allows for the signal transmission in the highest quality. The cable is unidirectional, it means that the data flow is one way from miniDispalyPort to VGA.
