Fan

Model: **AW-12D-RGB**

Product code	AW-12D-RGB
Product type	Fan
Supply voltage	12 V
Power consumption	0.16 A
Power supply connector	Mini 6 pin
Fan size	120 mm
Maximum noise level	22.8 dB(A)
Cable length	50 cm
Material	ABS
Product color	Black
Color insets	White
Backlight color	Multicolor
MTBF	30000 h
Package	UniBag
Product size (L x W x H)	120 x 120 x 25 mm
Package size (L x W x H)	260 x 130 x 26 mm
Net weight	84.4 g
Gross weight	90.3 g
CE compatibility	Yes
RoHS compatibility	Yes
REACH compatibility	Yes
Included accessories	Screw
EAN code	5901720136091
Warranty	24 months

Description

Akyga® AW-12D-RGB fan is a high quality cooling for desktop PC computers. Well designed and thought out blades shape positively influences the effective and simultaneously quiet operation of the fan. For an even quieter effect, **anti-vibration pads** have been integrated into the frame. They do not only reduce the risk of vibrations, but also guarantee a better fit to the case walls. Furthermore, the fan is equipped with a robust **sleeve bearings**. They ensure a very long and trouble-free operation at maximum speed.
Coloured case fans are an excellent way to present a case interior. The AW-12D-RGB is therefore the ideal solution for every ATX case with a transparent window. It has a programmable **light ring**. Inside, there are **15 RGB LEDs**. This allows you to get almost every colour of illumination according to your individual preferences.
The fan is equipped with a **50 cm cable** ended with a **mini 6-pin connector**. This length of the cable will allow you to freely install the fan in the case, while the included connector will allow you to connect the product to the dedicated AK-CA-73 controller.
Mounting screws are included with each fan.
