## Description

The Akyga® AK-CA-68 front panel designed for mounting in computer cases as a service or replacement part, consists of **two USB 2.0 ports**, a headphone and a microphone inputs. The USB 2.0 ports are perfect for connecting a wireless mouse, keyboard, external storage media or other peripheral devices.

Audio inputs allow to connect speakers or microphone headphones. The panel works in accordance with the Audio HD system. The cable length of **65 cm** allows for easy connection and arrangement of cables inside the case.

The panel is great as a replacement of broken parts, as well as in case of need to have more USB ports. It is an ideal solution that can be used in Akyga Midi Tower enclosures.
