Description

The high quality, beautifully made Akyga® AK-AD-04 HDMI adapter allows you to connect an HDMI cable to the device with a mini-HDMI socket. It is used when installing cabling for audio and video devices such as television sets or home theater systems. Gold-plated terminals and high precision of workmanship allow for the highest quality signal transmission, the adapter supports HDMI version 1.4. The adapter is bi-directional, which means it supports data transfer in both directions.
