Description

Akyga AK-USB-27 3in1 USB cable is an indispensable gadget for every user of many mobile devices. It allows you to quickly charge up to three devices simultaneously. The product is designed to charge devices equipped with connectors: **Micro USB, USB Type C** and **Lightning**. Thanks to that you can forget about looking for the right plug in the tangle of cables. With one cable, you can power almost any mobile device, including Apple devices. This ideal solution will be used not only at home, but also in the car, where the number of charging sockets is limited.

The **1.2 m** long cable is covered with **nylon braid**. It provides increased durability of the cable against abrasion or breakage and thus extends its life. This allows you to keep it in your bag or backpack without fear. There is a copper wire inside, which allows you to charge your devices with up to **3 A**.
